

**Let's have a small peak at what has happened until now**

## 1. The Virutal Learning Lab

We completed the virtual learning lab, which you can now find online on our website!! It was a challenging process, which led to the development of three interactive presentations of the three modules about green entrepreneurship, enviromental sustainability and inclusion on genially.

## 2. Microchallenges

Moreover, the VLL includes usefull and interactive activities to challenge yourself: branching scenarios, quizzes, virtual tours and much more!

**Look here!**  
[greenguardens.com](https://greenguardens.com)

## 3.

### Pedagogical Sequences

Now the next step is the development of material for children regarding deforestation, ocean and air pollution

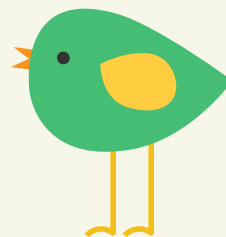

## 4.

### Game based activities

The gamified activities, included in the pedagogical sequences, utilise experiential methodologies to further enhance preschool learning. Recent studies show that this positively impacts on engagement & the development of valuable skills, like critical thinking & problem-solving.

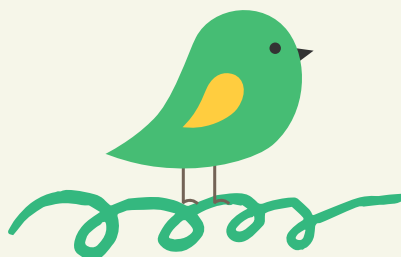

## Next activities

1. Launch of the Virtual Learning Laboratory and testing phase
2. Development of pedagogical sequences with game-based activities for children.
3. Training of kindergarten teachers on environmental sustainability and green entrepreneurship.
4. Meeting in Iasi to define further steps

And much more! Stay tuned
